

## VAST THROGS MEET FUNERAL TRAIN AS IT REACHES CHICAGO

Crowd Reaches Fifteen Miles from the Railroad Station—Assemblage Was Estimated at 200,000 to 350,000—Leaves City Nearly Four Hours Behind its Schedule

(By the Associated Press)  
CHICAGO, Aug. 6.—Father Dearborn bowed his head in mourning today as the nation's burden of sorrow reached Chicago.

Thru miles upon miles of people the funeral train bearing the body of Warren G. Harding passed, scarcely faster than a man might walk.

Fifteen miles from the great railroad terminals the bareheaded throngs grew dense as the funeral cortege drew near to the largest city thru which it will pass.

Slowly the black draped engine moved thru the great throngs at times so dense that they were crowded onto the tracks in front of the funeral cortege even as they tried to make a path for the train of mourning.

As the train reached the railroad yards where it transferred from the Chicago & Northwestern road to the Baltimore & Ohio to continue its long journey from the Golden Gate to the capital, traffic was halted for blocks at every street intersection and the people were massed so densely along the right of way that the train could only creep and at times stopped altogether.

## NEW PRESIDENT GIVEN INSIGHT OF NATION'S PROBLEMS

Constant Stream of Visitors to Coolidge Monday

(By the Associated Press)  
WASHINGTON, Aug. 6.—A constant stream of visitors kept President Coolidge busy today and gave him an insight into some of the governmental problems requiring his early attention. Conferences were held on a variety of subjects but all were subordinated to the preparation of plans for the funeral here of President Harding.

Many called at the hotel suite occupied by Mr. Coolidge simply to pay their respects. Chairman Hammond of the federal coal commission and President of the American Federation of Labor, however, discussed various phases of the coal situation with the next executive.

The agricultural situation was taken up with President by Fred Stark of the war finance corporation who submitted a summary of tentative plans to afford further relief to farmers. Senator Cummings, of Iowa, president pro tempore of the senate and several other senators also called, as did Chairman Adams of the Republican national committee. There was said to have been no discussion of things political.

## LARGE CROWDS MEET TRAIN IN HOME STATE

(By the Associated Press)  
WILLARD, O., Aug. 7.—Because of the large crowds the train was forced to slow down at Hicksville, the first town encountered in Mr. Harding's home state. The crowd had assembled from miles around and silently watched the cortege pass.

Large crowds had gathered at practically every town thru which the train will pass in Ohio, according to word received by Baltimore & Ohio officials.

At Akron and Youngstown hundreds have been assembled at the station for hours, according to word received here. In both places crowds are so dense it was said that west bound trains have been forced to slow down. The funeral train, already hours behind schedule, was expected to fall even further behind during its progress thru Ohio.

## ASKS REGULATION OF TRAIN'S SPEED

(By the Associated Press)  
WILLARD, Ohio, Aug. 6.—Mrs. Harding aboard the special train bearing the president's body to Washington, has requested railroad officials to see that the train travels no faster than fifty miles an hour at any time and that its maximum speed in cities and towns where crowds have gathered be ten miles per hour, according to a telegram made public here tonight by Superintendent B. F. Stevens of the Baltimore & Ohio railroad.

## HEART OF AMERICA PAYS ITS TRIBUTE TO DEAD PRESIDENT

Funeral Train Passes Thousands with Bowed Heads

(By the Associated Press)  
ON BOARD HARDING FUNERAL TRAIN, at Chicago, Aug. 6.—The heart of America, that great prairie region between the Missouri River and Lake Michigan, was filled anew with sorrow today as the funeral cortege of the Republic moved eastward thru the states of Iowa and Illinois and then onward toward Washington.

Leaving Council Bluffs on the banks of the Missouri in the early morning hours the special train bearing the body of President Harding travelled steadily eastward to arrive late in the day at Chicago.

Transferred from the Chicago & Northwestern railroad to the Baltimore & Ohio here, it sped eastward into the darkness on the last portion of the long and sad journey from the Golden Gate.

Never in the history of any nation, perhaps, have such scenes of poignant sorrow for the dead and such manifestation of deep sympathy for a bereaved people been witnessed as during the day when countless thousands marked reverently the passing of the funeral train. To those aboard the train it seemed as tho the American people had moved into the two states traversed and were standing silently with uncovered and bowed heads. Eyes grew misty and throats choked at the uncontrolled display of emotion by a stricken people.

The old and the young, the weak and the strong, and the rich and the poor were there. It was a proof of patriotism and loyalty that America will not soon forget.

Some Saw Lincoln Cortege. Those who stood mourning the passing dead included among their number some who remembered the passing from Washington to Springfield, in Illinois, 58 years ago of the funeral cortege of the martyred Lincoln. There were those who recalled the days of 1901 when a similar train bore the body of McKinley from Buffalo to Washington and thence to Canton, Ohio.

Mingled with the expressions of grief always were the manifestations of sympathy for Mrs. Harding who during the day left her room and spent some time in the black draped and flower walled chamber of the last car. Resting the body of her husband, she still remained the bravest of those aboard the train in keeping with her promise not to break down.

The bereaved widow was joined in her sorrow during the day by Dr. George T. Harding, Jr., brother of the late president. Dr. Harding accompanied by Dr. Carl E. Sawyer, of Marion, Ohio, met the funeral train at Dixon, Ill., having been brought there from Chicago on a special train over the Chicago & Northwestern.

Mrs. Harding Rests. Much of the day was spent by Mrs. Harding in rest, preparing herself for the trying hours to follow the arrival of the train in Washington tomorrow. She also has been giving some thought to her plans for the future. While no definite decision has been reached it was thought probable by some of the closest friends with whom she has been talking that she will make her home at least for some time after leaving Washington with her brother C. B. Kline, of Marion.

As the train drew near to Chicago, the largest city thru which it has passed and in which Mr. Harding was chosen by his party in the 1920 national convention as its leader, there were many touching incidents, all expressive of the sorrow of the great city. Steel mills along the tracks became silent and their workers, leaving their machines, formed a line outside the buildings along the railway on top of freight cars and even on the roofs. All stood reverently with bowed and uncovered heads as the cortege passed.

Despite the great throngs, and it was estimated that those who saw the funeral cortege as it passed Chicago numbered anywhere from 200,000 to 350,000 persons, there was scarcely a sound as the train rolled slowly by. People stood with heads uncovered and almost breathless. Some of them had stood along the dusty, hot and uncomfortable right of way for more than four hours.

Airplanes dropping flowers circled overhead as the train entered the city some of them swooping down only a few hundred feet above the black draped train to drop their blossoms.

At from and Youngstown hundreds have been assembled at the station for hours, according to word received here. In both places crowds are so dense it was said that west bound trains have been forced to slow down. The funeral train, already hours behind schedule, was expected to fall even further behind during its progress thru Ohio.

## FUNERAL TRAIN TRAVELING FAST

(By the Associated Press)  
CHICAGO, Aug. 6.—Traveling nearly a mile a minute to make up their lost time owing to the great crowds in Iowa and Illinois during the day, the Harding funeral special sped thru Indiana tonight toward Washington. The train passed Milford Junction at 10:40 P. M., central standard time, covering the nearly 24 miles between LaPaz Junction and Milford Junction in 24 minutes. Crowds at the stations still delayed the train but were not so dense as the night wore on.

Two men are believed to have jumped into the car as it left the Union Station at Peoria. Two more are believed to have got on before the train gained much speed. The messenger was alone in the car. ## DRAINING OF UPPER MISSISSIPPI VALLEY MEETS OPPOSITION

Convention of Sportsmen Voices Disapproval at Meeting

(By the Associated Press)  
MCGREGOR, Iowa, Aug. 6.—Opposition to attempts to open the upper Mississippi Valley to meeting here today attended by wild life conservationists and sportsmen of Iowa, Wisconsin and Minnesota, who considered plans of the Izaak Walton League to present a bill to the next congress asking the National government to take over the Mississippi River bayous and land from Wabash, Minnesota to Rock Island, Ill.

According to W. H. Dilg, president of the league 100,000 letters of protest against the drainage idea have been sent to Washington and a million will go in a few months.

"We cannot permit posterity to be robbed of the last breeding ground for warm water fishes in the United States," Mr. Dilg declared. "Drainage has been extended to such a degree it is becoming a mania," said Carlos Avery, Minnesota game and fish commissioner. "The existence of water fowls is being threatened and the fish supply is being alarmingly reduced. Geese as breeding birds have entirely disappeared from Missouri as a result of drainage of their breeding grounds. The calamity of the loss of bird life would be minimized had these drainage projects resulted in material benefits to agriculture but they have not."

Dr. O. E. Kay, Iowa state geologist said little tillable land not subject to overflows had been obtained as a result of drainage projects. Other speakers included R. L. Barney director of U. S. Biological Station at Fairport and Mrs. C. H. McNider of the Iowa Conservation Board.

Edgington, 27, Mairfield, Iowa, at 7 a. m., Saturday near Godman, Wis., cut to pieces by a train which is believed to have passed over his body at 2:35 o'clock Saturday. It is believed that the young physician was either knocked unconscious, robbed and left on the tracks to perish under the wheels of a train or was robbed and thrown from another Soo Line train. At midnight the physician purchased a ticket for Minneapolis at Pembine, Wis., 16 miles from the scene of the tragedy. At the time he had more than \$50 in his wallet. When the body was found only \$5 in change remained.

## PICK WILD FLOWERS FOR HARDING BOUQUET

Fearing the train would not stop here the committee drove to Beverly, six miles west, where it knew the train would stop for water. The flowers were placed aboard there.

Hundreds of persons here obtained mementos of the funeral train by placing coins on the track which were flattened by the heavy wheels. Dollars, dimes, nickels and pennies were rescued after the train had passed.

## HENRY SULLIVAN SWAM ACROSS THE ENGLISH CHANNEL

Duplicates Feat of Webb and Burgess After Many Trials

(By the Associated Press)  
CALAIS, France, Aug. 6.—Henry Sullivan, of Lowell, Mass., today achieved an ambition he has had for many years—that of swimming the English channel and duplicating the feat of Captain Webb and T. W. Burgess, the only men to perform the feat. Sullivan took the water at 4:20 o'clock Sunday at Dover, England.

Just how far Sullivan had to swim in battling his way across the choppy waters buffeted by the waves and carried thither by the succeeding tides has not yet been definitely ascertained. One report tonight was that he had swum a distance of 90 kilometers or 56 miles.

The latest announcement of Sullivan's time fixed it at 27 hours, 25 minutes, as compared to Captain Webb's 21 hours, 45 minutes and that of Burgess, 22 hours, 35 minutes.

Examination by the physicians showed Sullivan to be in good condition.

## PREPARATIONS ARE MADE FOR HARDING FUNERAL CEREMONY

All Military and Civil Honors of a Great Nation Will be Paid to Memory of Late President—Body Will Remain at White House Until Wednesday—Funeral in Capitol

(By the Associated Press)  
WASHINGTON, Aug. 6.—All the military and civil honors that a great nation, in sorrow and prayer, may bestow upon its dead will be paid to the memory of President Harding in the state funeral ceremonies here tomorrow and Wednesday.

Preparations are made for the saddest ceremony in the life of the country since twenty two years.

Tonight the national capital draped in mourning awaited in grief the arrival of the funeral train.

President Coolidge, cabinet members, Chief Justice Taft and Senator Cummins of Iowa, president pro tempore of the senate, will meet the train as it draws into Union Station at 1:30 P. M. Members of the guard of honor—soldiers, sailors and marines—will remove the body from the car where it has rested since the long trip from San Francisco began, and bear it to a black draped caisson to the entrance of the president's room.

As the caasket is taken thru the station concourse the marine band will play a funeral dirge.

On the broad plaza outside will be drawn up a squadron of cavalry, a battery of field artillery. As the caasket is lifted to the caisson they will form in line to "present arms" and the marine band will play as the caasket is strapped into place. On signal the cavalrymen will swing away in column leading the way to the white house. Behind them the caisson and flag draped caasket will follow, then some members of the party that made the fateful journey with the dead chieftain, President Coolidge, and other officials and the battery of artillery.

Passing thru streets cleared of traffic the cortege will turn southward to the capitol grounds down the winding roadway to Pennsylvania Avenue, and then over the historic route that has witnessed every great moment of joy or sorrow in the nation's life. The caisson alone will enter the white house grounds, the troopers swinging aside to line the broad avenue before the executive mansion, sitting motionless and with sabres at "present" until the caasket has been lifted down and carried into the stately east room where it will rest until Wednesday.

Mrs. Harding will not ride in the procession from the station. Accompanied by such members of her party as she may designate she will go to the white house immediately after the train arrives and will be received by Mrs. Coolidge and the wives of the cabinet officers who will await with her the arrival of the body.

While the caasket is in the white house there will be placed on the bier a wreath for Mrs. Harding, by the president and Mrs. Coolidge, one for the supreme court by Chief Justice Taft, one for congress by Senator Cummins and Speaker Gillett of the house of representatives who is accompanying the body and wreaths also from the heads of foreign and state governments. On Wednesday at 10 A. M., the caasket again will be placed on the caisson for the journey over Pennsylvania Avenue to the capitol, where will be paid the last rites of loving remembrance. The historic thoroughfare will be cleared of all traffic and will be roped off with cordons of police on guard as the funeral cortege moves slowly to the muffle of drums and funeral dirges by army, navy and marine corps bands.

Formation of Escort. General Pershing and his staff will head the military escort consisting of the first battalion, thirteenth engineers and band; the twelfth infantry and band; the marine band; the fifth regiment of marines; the navy band; a composite regiment of sailors; a battalion of the District of Columbia national guard, the first battalion, sixth field artillery; the second squadron, third cavalry and the army band.

The caisson will follow the troops and then will come Mrs. Harding and other members of the mourning family with President Coolidge immediately behind. Following in the line will be cabinet officers, Chief Justice Taft and justices of the supreme court, former President Wilson, senators and representatives and other government officials, state governors and representatives of many military, fraternal and civic organizations.

Assistant Secretary Davis will lead the officers of the army; Assistant Secretary Roosevelt, the officers of the navy; Assistant Secretary Moss of the treasury department the commissioned officers of the coast guard and public health service and Assistant Secretary Drake the commerce department, the commissioned officers of the coast and geodetic survey.

## MAN SHOTS NEIGHBOR TURNS GUN ON HIMSELF

(By the Associated Press)  
JOLIET, Ill., Aug. 6.—Charles Luthie, of Bracville, a small village near here, ran amuck into today in his home shooting a neighbor and seriously wounding himself in the head. Two years ago a daughter was burned to death, a year ago his only son was shot and killed accidentally by a companion. These misfortunes were recalled to him last Sunday by the death of a neighbor's son by lightning. This morning Luthie purchased a revolver and ammunition. Upon arriving home, his wife remonstrated with him and attempted to take the gun from him. He struck her over the head with a bottle and she ran from the house. Sheriff Mack was called and after firing at the house in which Luthie had barricaded himself and getting no response, he rushed in and found Luthie in the kitchen in a pool of blood.

LIGHTNING DESTROYS BARN AT WINCHESTER

Grain and Hay Destroyed With Building on Norman Farm—Other Damage Done by Storm—Personal Items From Scott.

Winchester, August 6.—The large barn on the farm of John Norman, Jr., was struck by lightning during the heavy electrical storm which visited this vicinity Sunday afternoon, and burned to the ground. The owner succeeded in rescuing his five stock and his auto from the burning building; but a large amount of grain and alfalfa hay which was stored in the building, was totally destroyed. The loss is partially covered by insurance.

Only thru the strenuous efforts of neighbors, who rushed to the scene of the fire, was it possible to save the Norman residence from the flames. However little damage was done to the house. In the heavy wind which accompanied the electric activity of the storm, a number of shade trees were uprooted, autos were blown over and wagons loaded with wheat which could not be got to shelter in time were unloaded by the breeze. Telephone lines were also considerably damaged.

PLANNING TO BUILD HOUSES IN CITY

St. Louis Men Looking Over Jacksonville for Home Building Program

Jacksonville people will be interested in knowing of the visit to this city of a group of St. Louis men who come with the thought of building a number of residences in Jacksonville, to be sold on liberal time payments. The visitors, who were brought to the city by L. L. Horen, formerly in business here, were M. M. Counelle, Edward A. O'Reilly, N. Gordon and William M. Rideout.

These men have had practical experience in this line of activity, have ample funds at their disposal and experience in building work. They will meet today individual business men and directors of the chamber of commerce.

Mr. Rideout is a member of the firm of W. M. Rideout & Co., Inc., engineers and contractors. It was explained yesterday that Mr. Rideout and his associates are at this time seeking nothing in Jacksonville other than good will and if they find that there is the prospective demand here for residences which can be bought on liberal terms and that people will welcome them here, their thought is to build 50 or 75 houses as the demand may suggest.

The St. Louis men, it was stated, were not looking for financial assistance, as they have access to funds necessary for carrying on the business in which they are engaged. The local demand for houses indicates that Jacksonville is "ripe" for such a building program and business men and others will be very much interested in learning more details of the plans of the visitors.

W. L. MAIN CIRCUS PLEASED PEOPLE

Two Creditable Performances Given Here Before Large Audiences.

The Walter L. Main circus reached Jacksonville on scheduled time Sunday and the work of erecting the tents was soon under way on the Stout lots. However, because of threatening weather the big tent was not erected until Monday morning.

It looked bad for the circus early in the day with a steady rain falling, but before noon the weather was clear, and the afternoon and evening attendance was fully up to expectations.

The morning parade moved on time and was satisfactory. There have been larger circus aggregations in Jacksonville but the quality of the Walter L. Main circus is of the best and the audiences were mighty well pleased. The Wirth family act and some other features of the circus program were far above the average and it can be said safely that the circus as a whole lived up fully to a good reputation.

A bold highway robbery occurred at the northeast corner of the circus grounds as the show was closing last night when an unknown colored man knocked down and robbed a local colored woman. She reported the matter to the police who were patrolling the grounds, stating that the man who attacked her carried a long spring blade knife, which he held to her throat after knocking her to the ground. He forced her to surrender a five dollar bill, which was hidden in her stocking.

Upon being questioned, the woman gave a description of her assailant. She said he wore a cap, light shirt, black necktie and

However, the boss of the gang stated that the man picked out had been working at the wrecking of the tents all evening. He said, however, that one or two colored men who had quit their jobs yesterday answered the description given.

As the negro released his victim and started to run away with the money he dropped the knife he had used to overpower her. She obtained possession of the weapon and turned it over to police.

## REV. ROBERTSON IS SPEAKER ON LAWN

Union Service Sunday Evening Well Attended—Minister Delivers Sermon on Famous Inquiry of Greeks.

A large crowd attended the union services Sunday evening on Grace church lawn. Music was furnished by the Kearns orchestra, and the singing was enthusiastic and filled with inspiration. Rev. T. H. Tull read the scripture lesson and led in prayer.

The speaker was Rev. C. D. Robertson, pastor of Centenary church. He used the inquiry of the Greeks in the twelfth chapter of John as his text, "Sirs, we would see Jesus." He dwelt upon the fact that these men, altho they were learned in the greatest culture and philosophy of the times yet recognized something lacking in their system. They were searching for Jesus to find the truth that would provide the balance wheel for their lives.

It is important for us to realize that life cannot be left hanging with loose ends. It must be anchored to something fundamental and substantial. The most permanent and outstanding fact of the twentieth century is Jesus Christ, and Him and His principles, each to be truly in harmony with things as they are, should be anchored.

## BODY TO REST IN EAST ROOM

(By the Associated Press)  
WASHINGTON, Aug. 6.—In the chill statehood of the white house east room the body of President Harding will be placed on its arrival here tomorrow. There, with the cold gleam of the room's giant central chandelier above the bier it will remain until it is taken to the capitol rotunda for services Wednesday morning.

Tonight the stiff gilt incrustations of the chamber's ornaments had disappeared behind masking masses of greenery, touched with the softer glow of funeral flowers.

Again the east room which has been held apart a full center for the most notable ceremonies in which presidents have represented the nation will hold watch over the dead. Presidential death is not new to the east room, the bodies of Lincoln, Garfield and McKinley rested there.

Tomorrow the body of President Harding will rest on the spot where he stood many times during more than two years of service, the chief actor in significant bits of national drama. In the east room, he planned on the breasts of scores of uniformed men the awards of honor to be token heroism, self-sacrifice or extraordinary service in the latest war.

## TOM DOYLE EXPLAINS PLAY IN SUNDAY GAME

In the game between the O'Connells and Indies at South Side park Sunday a play came up that caused some dissatisfaction among the fans.

Emert was on second and DeFrates at the bat. DeFrates hit a hard grounder toward first base that apparently went right over the bag. Jewell made a hard try for the ball but was unable to reach it.

Emert scored and DeFrates reached third on the hit but Umpire Doyle called it a foul sending Emert back to second and DeFrates to bat again. The latter then struck out. This deprived the Indies of a run.

Umpire Doyle who was umpiring behind the pitcher at the time wishes the Journal to state that from where he stood it looked as though the ball went outside the bag. The ball was going so fast that it was impossible for him to get over to the line to see it. Doyle says he tries to call them right but that he makes mistakes the same as

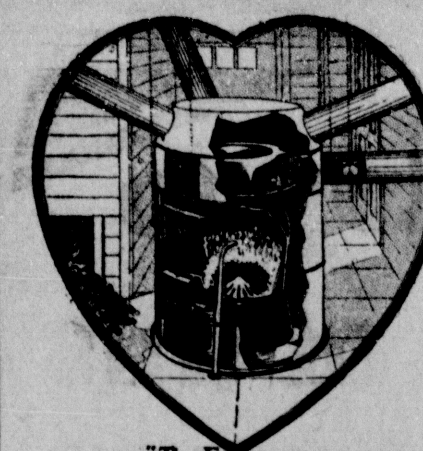

every one else. He also says that DeFrates is one of the best friends he has and that he also admires him for his ability as a player.

The writer believes that Doyle is square as they make them and calls the plays as he sees them regardless of whose favor they are in. We have seen lots worse umpires than Doyle and so have the fans who have had occasion to journey with the team to other cities.

## ALEXANDER DOWNS WOODSON TEAM 27-1

The Alexander Merchants downed the Woodson team Sunday by such a lopsided score that they should really be ashamed to call it a contest. At the end of five innings the Alexander tossers had run the score up until it stood 27 to 1 in their favor and as Woodson had used up three pitchers without stopping their opponents for a minute they rightfully became discouraged and took their doll-rags and went home.

This being the fourth straight victory for the Alexander team they are now craving trouble by wanting to get into action against the Indians or the Yankees. Manager Boggs is now looking for teams that can give his aggregation some real action and invite correspondence from any semi-pro team that can furnish a real contest.

Following are the results: Reed and Cannon of Springfield tied with Wright and Alves of Jacksonville. Masters and Hubble of Jacksonville beat Winchell and Littlejohn of Springfield, 4 up. Gregory and Farrell of Jacksonville beat French and Curtis of Springfield 8 up. Stivers and Wassell of Springfield beat Rantz and Reynolds of Jacksonville, 12 up.

## FANNING PITCHES SHUT OUT GAME

Local Hurler Turns O'Connell's of Springfield Back Without a Run—Struck Out Fifteen Men—Locals Score Only Run in First

Pitching one of the greatest games of his career, Ira Fanning shut out the O'Connell team of Springfield at South Side park Sunday, the locals winning by a score of 1 to 0.

Fanning only allowed three hits, two of these came in the first inning and one in the seventh. He struck out 15 men, and walked one.

Only two men reached second base. One of these got on in the first inning and one in the second. After the second inning only three men reached first and there were all cut down trying to steal by Clark whose throwing arm was working like a machine.

While Fanning was doing his big league stuff, Keeble a younger pitcher for the visitors was not far behind. Keeble did not seem to have much of a big round-house curve and a pretty good fast ball. However, the locals seemed unable to solve his curve.

They hit the ball but were not able to meet it squarely, and when they did hit at some fielder, Keeble allowed six hits. Two were bunched in the first inning and gave the Indians the lone score of the game. He struckout seven men, walked one and hit one. He started his own downfall in the first when he hit Massinkoff the first man up. Massinkoff took second on a passed ball, stole third and scored on Wheeler's double. Wheeler was thrown out trying to score on Ruble's single to Rositter. That ended the scoring.

There was little opportunity for fielding on the locals' part. Clark did practically all of the work. He never caught a better game, holding Fanning up in fine style and cutting down every base runner but one. This was Jewell who is a slow man and no one expected him to steal a base. DeFrates made two nice catches of fouls back of second and did a fast bit of fielding when he threw out Wilkin at first on his bunt toward third base. The outfield did not have a putout.

The visitors gave Keeble perfect support and that helped a lot. Dorgan, Kilcummins and Rositter did some excellent fielding.

The Indians looked like a different team out there Sunday. Every man was on his toes all the time and there was more pep in the bunch than we have seen for many days. It is that kind of stuff that will win ball games and we hope they will show it all the time.

Most of the fans voiced their appreciation of the players work too. However, there seems to be many fans, though they are in the minority, who are always against the home and for the visitors. We don't know whether this is because they have a dime bet on the game or because they are like some other citizens who are always knocking their town and any enterprise that is started. But as stated they are in the minority and may finally get ashamed of themselves and do a little rooting for the home team.

## If Your Engine Could Speak

It would tell you why, at times, it seems to hesitate, drag and fail to deliver that steady, even flow of rhythmic power which is so necessary if motoring is to be enjoyed. It would tell you that a motor can run smoothly only when the frictional parts are amply protected by a cushion of good lubricating oil, thus permitting free, easy, noiseless action.

It would tell you that the wrong oil almost invariably causes excessive carbon, loss of power, transmission troubles, fouled spark plugs, and overheating.

The right oil for your car—the grade of Polarine indicated in the chart—means minimized repairs, fewer renewals of parts, greater flexibility, and more power.

### Use Polarine

THE PERFECT MOTOR OIL

## Made In Five Grades

for all cars, at all temperatures, at all speeds. It meets every automobile lubricating need. Polarine is made in five grades. The one specified in the chart is the correct grade for your car and will insure perfect lubrication.

Polarine is of the right viscosity to maintain a perfect film under the extreme of working conditions. This means assured compression and maximum power.

Polarine lubricates thoroughly every frictional surface and will not break down. It seals your pistons against loss of power.

The essence of true economy is to drain your crank case every 500 miles and fill up with the correct grade of Polarine. Your car will give you better service and it will last longer.

**Market Report**  
**By The Associated Press**

**WHEAT AVERAGES HIGHER IN PRICE**  
CHICAGO, Aug. 6.—Despite huge increase in the domestic supply total wheat averaged a little higher in price today. Absence of any aggressive selling was a feature. The close was unsettled at a range varying from 1c net decline to 1/2c advance with Sep. 36 1/2 to 36 3/4 and December 1.00 1/2. Corn finished 1/2c to 3/4c down, oats 1/2c off to 1/4c up and provisions at 10c to 1 1/2c gain.

Altho the increase of the United States visible supply of wheat amounted to 7,410,000 bushels for the week including nearly 5,000,000 bushels at Chicago little if any depressing influence on the market resulted the enlargement having been foreseen and with other bearish factors been aptly discounted by previous setbacks in price.

Gossip about Europeans selling back wheat bought in the United States deferred shipment had more or less to do with easing the wheat market in the late dealings. Bears, however, were handicapped by price upturns in cotton. Besides indications continuing that wheat farmers in the southwest were holding out for better offers.

Corn declined in price as result of rains which seemed to assure a good crop of corn this year unless serious damage by frost occurs.

Oats altho firm at first were afterward easier with corn. Provisions reflected an advance in hog values.

**CASH WHEAT WAS ACTIVE YESTERDAY**  
CHICAGO, Aug. 6.—Wheat in the cash market today showed considerable activity with all interests in the market. Prices finished flat @ 1c better. Premiums and discounts were strong to 1c better on winter grades and unchanged for spring. Domestic shipping sales here were 25,000 bushels and there were sales of 300,000 bushels to go to store here.

Corn was active and closed 1/4c better.

Elevator houses and shippers were good buyers.

Domestic shipping sales were 105,000 bushels.

Oats closed 1/2 to 1c easier on premium. The demand was poor. Offerings were liberal. Domestic shipping here were 130,000 bushels.

Cars inspected: Wheat 1475; corn 283; oats 263.

**YANKEES STAGE THE GAME WITH VIRGINIA**  
Game Sunday Results in Score of 3 to 3, With Play Called on Account of Rain—Technique of Rules Keeps Merchants from Scoring Winning Run

The Jacksonville Yankees played the Virginia Merchants to a 3 to 3 tie up until the last half of the ninth when with one down play was suspended on account of rain. The run which Virginia put across in the ninth was thought at the time to be the winning run, but after the game Rule 59, Section 22 of the Official Rules provides that with two out the batter must reach first base safely if the man from third is allowed to score, but the third man struck out and the catcher dropped the ball but recovered same and threw the third man out at first while the runner from third came across the plate, but the run did not count.

Therefore at the conclusion of the eighth inning the score stood 3 to 2 in favor of Jacksonville and if the game reverts to this inning the Yankees receive credit for the win 3 to 2, but if that part of the ninth inning which played is counted the game stands 3 to 3.

The Yankees outthit the Virginia players two to one, securing seven singles and one double while they received but four singles. The playing of the whole Yankee team was stellar especially is this true of the infield who had credit for two double plays and many other snappy plays which cut off runs. Both Devlin and Towers pitched excellent ball, each allowing two hits.

The Yankees are playing some good ball and expect to be in tip top shape when they will meet the local Indians at the close of the season in one or more games. Next Sunday they will play at Concord.

There is one open date on the Yankees schedule during August which is the 19th and any team wishing to book can write William Wagner, Manager, 502 East North street.

## 100° in the Shade or 10° below Zero!

One hundred degrees in the shade or ten below zero, meat deliveries to your retailer go steadily on, so that you may be assured of just the kind and quality of meat that you desire.

No city is so far removed from live stock production that it cannot receive its regular supply of fresh meats.

Compare this with the meat supply of thirty or forty years ago. Summer weather then meant salt or pickled meats in the country, and a limited variety of fresh meats in most cities.

Refrigeration, developed by scientists, has made it possible for Swift & Company, and other packers, to prepare fresh meats and ship them long distances in refrigerator cars, so that today, without regard to heat or cold, meat reaches your dealer fresh, clean, and wholesome.

In addition to the fresh meats thus available, Swift & Company prepares a variety of tempting meats for hot weather:

Swift's Premium Cooked Ham, mild and sweet, smoked over hard wood fires, is always delicious.

Swift's Premium Frankfurts, from our modern sanitary kitchens, offer a choice blending of meats and spices.

Swift's Sausage Specialties and Swift's Dry Sausage, ready to serve, help lighten the housewife's summer task.

In addition to these, a score of other Summer Specialties are made available by Swift & Company's research and development work.

Our profit from all sources averages only a fraction of a cent a pound.

## TO RELIEVE PAIN AND BACKACHE

Women May Depend upon Lydia E. Pinkham's Vegetable Compound

Minneapolis, Minn.—"I had heard so much about Lydia E. Pinkham's Vegetable Compound that when I realized I needed to take something to relieve my pains and backache, and to help build me up I began to take that. I had been sick off and on for years and barely weighed a hundred pounds, but now I have had such good results that I am recommending the Vegetable Compound to every one."—Mrs. J. J. BIEBER, 3933 18th Ave. South, Minneapolis, Minn.

**Finds a True Friend**

"Every woman who values her health should be proud to have a true friend like the Vegetable Compound," says Mrs. W. E. Shaw, 3227 Walnut Street, Chicago, Illinois. "I had female weakness so badly that I could not stand on my feet. Half of my time was spent in bed and I had pains in my back which were unbearable. I tried everything I could think of to help myself, and when a friend advised Lydia E. Pinkham's Vegetable Compound I began taking it at once. I recommend it without hesitation."

## POSSIBILITIES IN AMERICAN PEACE AWARD

Head of Children's Bureau Thinks Any Adequate Plan to Prevent War Must Include Guarantees For Children All Over The World.

Recently, in her office in the Department of Labor, Washington, Miss Grace Abbott, who is head of the Federal Children's Bureau and who is also unofficial American Observer on the Commission on the International Traffic in Women and Children of the League of Nations, said, in talking with two members of the Committee in charge of the American Peace Award who have been visiting the Capitol to confer with various persons and organizations:

"Am I, as one whose job is to discover and promote the welfare of children, interested in the \$50,000 award for a plan of co-operating with other nations to achieve world peace? It might well be argued that how to secure world peace is a fundamental problem in child welfare. Since the war, the United States has been spending millions in relief work in Europe—those millions have mainly been devoted to keeping children alive. But hunger is only one in that kingdom of evils in which war has placed so many children. There are millions who are fatherless; many millions more who have been taught fear, distrust and hatred, whose education and physical elfarew have been sacrificed to equip more and more soldiers. American children who were taken out of schools for work in munition and other factories were enlisted or conscripted for war service long before April of 1917. The present generation is struggling with the question of how to meet the interest on war debts; it is assumed that the children will pay the principal."

"All of us will hope Mr. Bok's offer may bring results. But whatever machinery for co-operation among nations is set in motion, it is really a function to prevent war, we shall need certain guarantees for children. They must be educated, healthy, happy, trained in self-discipline, to respect the rights of others, to respect differences in others. These guarantees are still needed for many children in the United States for whom we have never secured that equal opportunity to establish which this government was founded; but for the prevention of future wars and hence for the future welfare of American children, such guarantees are needed for children everywhere."

"The Most Effective Step That Has Been Taken Since the War"

John F. O'Ryan, Major General O. R. C., believes that the American Peace Award created by Edward W. Bok is the most effective step taken since the war to develop popular understanding and assure intelligent action.

In a letter just received at the offices of the ePeace Award, General O'Ryan says:

"My judgment on the American Peace Award is a very decided one. I believe that with a population as great as we have in this country, occupying a territory so extensive, with our numerous and diverse interests, and situated as we are so far from the continent of Europe, our greatest difficulty in playing the role we should play in the carrying on of the world's work is having that great population understand enough of world problems to appreciate the duty which is theirs. The American Peace Award, in my opinion, is the most effective step that has been taken since the war to (a) attract the attention of the people, (b) arouse their interest, (c) stimulate consideration and study (d) develop understanding and (e) assure intelligent action."
